Topic :Paradigm Shift: Infant Oral Health Care- Primary Prevention

By

Arthur J. Nowak, Professor Emeritus, University of Iowa

Progress has been made in developing programs to prevent dental disease, but the prevalence remains high and co-morbidities are increasing. A cure for dental disease has been elusive. Until a cure is discovered, we must select those interventions that have the highest level of success and target them to at risk populations.

Topic : Preventive Dentistry in Iowa - An Overview

By

Dr. Nyla Balakrishnan, Resident, Dental Public Health
University of Iowa College of Dentistry & Dental Clinics

University of IOWA had started a successful Infant oral Health Program, with a goal provide early dental evaluation of infants and toddlers and provide parent education. Many other successful interventions are ongoing in the university for promotion of infant oral health.
